DRIVING LICENCE

Driving Licence: B   30 Mar 2019 – 30 Mar 2021

CREATIVE WORKS

Offline Connection

[27 May 2019 – 24 Jun 2019]

People in Gaza face problems in their daily lives when they want to do several tasks that required internet. As Gaza is barely getting any Internet service due to the power cuts that leave people without electricity for nearly 20 hours a day. For example, Ahmed is a company manager, and he wants to send an email to his team, but he does not have the Internet Connection. How can Ahmed send the e-mail without the availability of the Internet connection? Previously, Ahmed should wait for internet connection so he can send that email. But what about do it without waiting? Our website will enable Ahmed to do this by provide him a number he can send an SMS message to it. So, Ahmed sends a text message containing the email message and the destination. Then our website will handle this SMS message and send the email. Finally, Ahmed was able to send the email and overcome the Internet connection loss problem. That is what we will do, a software project that provides a service to the users in which allowing them to do internet-based-required tasks through using the "Offline Connection" service.
